VANATUR Laminate Flooring

Vanatur laminate flooring is made from Vanachai Group's own HDF board. We chip waste wood into fiber, mix with resin, and use the world's most modern continuous press to produce our top quality HDF board.

Vanatur laminate flooring is strong enough to withhold downforce and rough usage, resisting to insects, and moisture preventing bends and fizzes. The overlaying film ensures scratch-free surface featuring bright and vivid color for its lifetime, as well as being easy to clean.
