Royal Kinabalu

MOUNTAIN RESORT & HOTEL SUITES

A Lifestyle Property Investment Inspired By Enchanting Nature

Royal Kinabalu

Hotel Suties & Mountain Resort

Have you often wonder and desired to invest in a second holiday home? However, the complication in this decision deter most of us from taking the leap forward and it concerns the ultimate question whether we can secure some rental revenue when the holiday home is not occupied! Fixed rental return may not be the right choice as it will deprive the freedom to stay at anytime to the owner when he desires for his own vacation! This quandary may no longer be an issue as you can now invest in Royal Kinabalu, a prestigious MM2H products to be developed with close proximity to Kinabalu Park, the Malaysia first world heritage site, to boot. While enjoying the fresh mountain air, admiring the majestic Mount Kinabalu and generally relaxing in your own comfort zone, you can have a lucrative investment return. And this is all from the hotel suites when you are not living in it.

BLOCK ASTER & BLOCK BEGONIA

These dreams are possible with The Royal Kinabalu Hotel, suites and Spa, a luxury mountain resort estimated to cost RM300 million to be launched by Kinsabina Sdn Bhd, the parent company of the Kinsabina Group of Companies whose core business is mainly on building construction and property development in Sabah.
